

Overview

The HCIA certification training program has been designed to deliver industry standard training and certification to students, to build the skills required by industry, improve employment opportunities for young people and help to fill the ICT skills gap within the Sultanate.

This Huawei HCIA certification is the common certification for Network engineers and IT Professionals. It is similar to Cisco CCNA certification.

In connection with this, In UTAS-Salah, **HCIA - Cloud Service (V2.2) training** course has been created successfully and the classes will be started from 17th May 2022.

On-campus classes will be conducted during Tuesday (Every week) -12.00 – 02.00 PM

How to Register and Join the class?

Method 1:

The students who have a Huawei account already, login to the Huawei TALENT ONLINE website, choose User Center > My Classes, and enter the invitation code (**bF5pCY**). The system will automatically associate you with the corresponding academy.

Method 2:

The students who have an account and if you cannot join the class, please share your account name to my email ID then we will associate you in our academy.

Students without HUAWEI account:

You can register your account by using the following link:

<https://uniportal.huawei.com/accounts/register.do?method=toRegister>

For further clarifications, please feel free to contact Dr. Bernard (95475300) and Mr. Devarajan V (97846164).
